

Office of Mayor Miro Weinberger

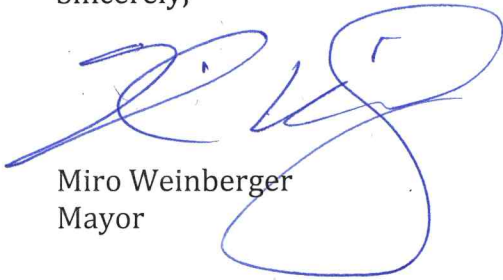

May 22, 2013

Kevin Curry
Code for America
155 9th Street
San Francisco, CA 94103

The City of Burlington's Mayor's Office supports the work of Code for BTV, a Code for America Brigade. We value civic engagement and the work that is being done by civic hackers to improve our local communities. We are happy to be hosting a National Day of Civic Hacking event in Burlington through the efforts of Code for BTV.

The City of Burlington looks forward to working with Code for BTV as a municipal partner on civic software and open data projects. We hope that you will consider giving Brigade Captain status to Code for BTV organizer, Bradley Holt. Through collaboration between the City of Burlington, Code for BTV, and Code for America, we believe that we can foster an environment of civic innovation.

Sincerely,

Miro Weinberger
Mayor
